DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 30, 2007 has been entered.

The declaration under 37 CFR 1.132 filed October 30, 2007 is sufficient to overcome the rejection of claims 1-14 based upon JP 11-021,197.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest an as-grown single crystal of alkaline earth metal fluoride, produced by a single crystal pulling method, with a light transmittance, as measured at a wavelength of 632.8 nm, of not less than 80%. As shown in the Declarations, filed June 25, 2007 and October 30, 2007, single crystal formed by a different method, i.e. by Bridgeman-Stockburger method, does not have the required light transmittance, even after annealing treatment (note Comparative Experiment I in the Declaration filed June 25, 2007). Also, single crystal formed by the pulling method as claimed, in the presence of the lid 14 (note the Declaration filed October 30, 2007) but without the barrier 13,

does not have the claimed light transmittance, even after annealing treatment (note Comparative Experiment II in the Declaration filed June 25, 2007). The Comparative Experiment II effectively shows that the light transmittance is not inherently achieved from the pulling method if the barrier 13 was not present, as in the case of JP 11-02117.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ngoc-Yen M. Nguyen whose telephone number is (571) 272-1356. The examiner can normally be reached on Part time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley Silverman can be reached on (571) 272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
